---

Full-Stack Web Developer — Laravel • Vue.js (Vue 3) • Node.js — 3+ years

Practical full-stack developer with 3+ years building scalable Laravel backends and Vue.js frontends. Strong in REST API design, Eloquent ORM, Vue 3 (Composition API), MySQL/MongoDB, and Docker-based deployments. Experienced in performance optimizations, CI/CD pipelines, and collaborating in distributed teams.

Skills

Languages & Frameworks: PHP (Laravel), JavaScript, Node.js, Vue.js (Vue 3, Composition API), CodeIgniter

Frontend: Vue Router, Vuex, Single File Components (SFC), responsive design, HTML5, CSS3, Vuetify

Backend & Databases: REST API, Eloquent ORM, MySQL, MongoDB, Sanctum authentication

DevOps & Tools: Git, GitHub/GitLab, Docker, CI/CD (GitLab CI / GitHub Actions), Nginx, Linux

Collaboration: Trello, Slack, remote communication, mentorship

---

Experience

PHP Developer — Rudra Innovative Software Pvt. Ltd., Mohali *Aug 2024 – Present*

Built and maintained Laravel-based APIs and microservices; implemented Eloquent models and optimized queries to reduce average API response time.
- Developed Vue 3 front-end features using Composition API and Vue Router; improved perceived load time via lazy loading and code-splitting.
- Integrated third-party services (payment gateways, external APIs).

Backend Developer — Globiz Technology, Ludhiana *Jun 2022 – Jul 2024*

Led backend work for language testing and e-commerce projects using Laravel and CodeIgniter; designed RESTful APIs consumed by SPA frontends.
- Implemented caching and database optimizations that improved throughput and reduced server load.
- Collaborated with frontend engineers to build responsive Vue components and ensured cross-browser compatibility.
- Mentored junior developers and enforced code quality through reviews and unit tests.

Selected Projects

Alertrax Fleet Management — Real-time GPS fleet tracking dashboard (Laravel + Vue 3). Features: WebSocket updates, geo-fencing, map clustering. https://buyalertrax.com/

Social Arrow — Social growth & analytics platform; backend services and reporting (Laravel + Vue). https://socialarrow.com/

PTE Panacea — Automated language testing portal with CI and result exports (CodeIgniter/Laravel + Vue). https://ptepanacea.com/

Certifications

Udemy — Vue.js

Certificate: https://www.udemy.com/certificate/UC-f7a95627-a466-4871-b43f-d1aab94ed7f6/

Udemy — Laravel

Certificate: https://www.udemy.com/certificate/UC-0454eb17-703f-48af-b343-7671e476ebff/

Education

MCA, Lovely Professional University (2022–2024)

BCA, DAV College, Phillaur (2019–2022)
